

U.S. Application Serial No. 10/622,746
Responsive to Office action dated February 23, 2006

Attorney Docket No.: FSF-03511

REMARKS

Claims 1-20 are rejected under 35 U.S.C. § 102(e) as being anticipated by Takahashi, et al. (U.S. Patent Application Publication No. 2003/0232902). A certified translation of Applicants' Japanese priority document (Japanese Patent Application No. 2002-214237), which antedates the 102(e) date of Takahashi, et al., is herewith submitted.

Claims 1-20 are fully supported by the disclosure of the priority document. Specifically, independent claim 1 is supported by claim 1 and the description in paragraph [0023]-[0024] of the Japanese priority document. Independent claim 18 is supported by claim 3 and the description in paragraph [0023]-[0024].

In view of the foregoing, it is submitted that all of the claims currently pending in the application are in condition for allowance. Early and favorable action is respectfully requested.

Respectfully submitted,

Sheldon J. Moss
